## PALLET MATERIAL – MIXED HARDWOOD/SOFTWOOD

We buy pallet material from various sawmills in Estonia which allows us to offer specifications to suit our customers requirements. Material is produced from hardwood and softwood, cut and packaged to length, mainly unseasoned. In smaller amount we can offer also HT 56/30 treated pallet material.

Standard pallet material:

- thickness: from 14mm to 100mm
- width: from 50mm to 150mm
- length: from 500mm to 4200mm

**Packaging:** material is packaged to length, same thickness and same width in one pack. Different species packaged separately.

**Marking:** we mark the packs according to customer requirement, i.e. code, length, pack number etc. will be marked on both sides of the packs.
